# Velocity

**About:** Most companies with outward-facing dynamic websites face the same challenges: pages must load quickly, infrastructure must scale efficiently, and sites and services must be reliable, without burning out the team or breaking the budget. Velocity is the best place on the planet for web ops and performance professionals like you to learn from your peers, exchange ideas with experts, and share best practices and lessons learned.

**When:** 07.11.2016 - 10.11.2016

**Where:** Amsterdam

# DevOps Days

**About:** DevopsDays is a technical conference, aimed at developers, sysadmins and anyone else involved in technology, whether expert or beginner.

Truth is that agile techniques used in development have an impact on the way operations organizes its work. Similar, operations and sysadmins are becoming programmers because of the virtualization and automation trend where everything is managed through an API.

Some call this phenomenon devops, others agile system administration.

# DevOps Days

**When:** 16.11.2016 - 17.11.2016

**Where:** Berlin

**When:** 22.11.2016 - 23.11.2016

**Where:** Warsaw

# Config Management Camp

**About:** Its all about the Configuration Management

**When:** 15.11.2016

**Where:** Berlin

# Hangout access

Use direct link to get into the “DevOps Wroclaw meetup” [hangout's channel](#)

**Next Meetup: Tuesday 2016-11-29**

We need your DevOps presentation!

**Next Meetup: Tuesday 2016-11-29**

We need sponsors.

# Today's presentations

# Michał Łowicki - Introduction to Mesos and Marathon

Mesos / Marathon it's a solution which helps us in cluster of servers management.

Additionally it helps in running services like database or web apps in Docker's containers.

You will learn how it was done in Opera Wroclaw.

# Łukasz Hryniuk - Linux, Docker and GitLab CI

...about how one of the RST 's project team improved the process of building and delivery their software.

...about how they work to have better code quality.

...about how they manage the code, handle the responsibility and borders

**Let's start!!!**
