# Today's presentations

## Antoni Orfin – “DevOps in droplr”

- DevOps role in efficient development in Droplr
- AWS and his opportunity (Amazon ECS, Autoscaling)
- Infrastructure as Code (Terraform, Ansible)
- Cloud automation by Continuous Deployment/Integration (Jenkins) and automated tests (Selenium, Browserstack)

## Michał Jura - “Kubernetes as a Service for everyone”

- Kubernetes architecture
- Building high-performance cluster of containers using Kubernetes
- Automated installation of application embedded in Kubernetes in OVH Public Cloud

Enjoy...
